Friendly and design-focused front-end developer with over a decade of web development experience. Consistently delivered pixel-perfect websites by writing quality code that is clean and reusable. A strong team player with a proven ability to collaborate effectively with project stakeholders throughout the development life cycle. Eagerly seeking an exciting opportunity to advance career in UX design and web development.

## Work Experience

### Front End Developer, Standing on Giants, London

05/2021 - Present

Agency providing community management services including an online community platform

- Created high-fidelity wireframes and mockups in Adobe XD, using brand guidelines whilst employing a collaborative approach with clients.
- Developed designs into fully responsive, pixel-perfect web pages using HTML, Cascading Style Sheets (CSS and SASS), jQuery, JavaScript and the Foundation framework.
- Optimised Cascading Style Sheets (CSS) into a modular structure using custom SASS variables and mixins, resulting in more efficient styling of web pages.
- Successfully delivered numerous livestream events featuring a custom user experience (UX), resulting in a significant increase in new member sign-ups and engagement levels.
- Collaborated with a small yet highly efficient multi-disciplinary team using Agile methodologies including Kanban and incorporating elements of Scrum.

**Technical skills:** HTML, Cascading Style Sheets (CSS, SASS), jQuery, JavaScript, TypeScript, GIT, Figma, Adobe XD, Adobe Photoshop

### Web & UX Design, Career Break, London

03/2019 - 05/2021

- Completed dozens of hours of online learning for web and user experience (UX) design courses on Udemy and The Interaction Design Foundation.
- Attained a certificate for the course 'Become a UX Designer from Scratch' on The Interaction Design Foundation, with a top 10% distinction.
- Designed and built a fully responsive portfolio website showcasing past projects, using HTML, Cascading Style Sheets (CSS and SASS), jQuery and Bootstrap.
- Optimised ranking and display of portfolio website in the Google search results, using SEO principles and tracking page views using Google Analytics (GA) and Google Tag Manager (GTM).

### Front End Developer (Contract), East Atlantic Engineering

01/2019 - 03/2019

Agency providing digital solutions, e-commerce systems and corporate websites

- Transformed Adobe XD designs into clean and modular Cascading Style Sheets (CSS) to produce the user interface (UI) and user experience (UX) of web pages.
- Developed WordPress theme by customising templates, post types and taxonomies, to enable the user to differentiate content for different products within the admin area.
- Implemented responsive design, across mobile, tablet and desktop devices, by customising the Cascading Style Sheets (CSS) with media queries.
- Organised development of code with incremental changes using GIT for version control.

**Technical skills:** HTML, Cascading Style Sheets (CSS, SASS), jQuery, JavaScript (ES6), GIT, WordPress, Adobe XD

### Front End Developer, Sports Media Interactive, London

03/2012 - 03/2018

Strategy consultancy providing digital services for online gaming websites in international markets

- Created pixel-perfect web pages, by extracting assets from Photoshop designs and transforming these into organised Cascading Styles Sheets (CSS).
- Utilised the Bootstrap framework to create responsive web pages, whilst enhancing the user interface (UI) of mobile sites to align with the leading competitor brands.
- Collaborated with product managers, project managers, developers and designers using Agile methodologies such as a Kanban and project tracking software Jira.
- Reduced errors by performing code reviews on GitHub with GIT used for version control.

**Technical skills:** HTML, Cascading Styles Sheets (CSS, SASS), jQuery, GIT, Bootstrap, Photoshop
